

SHOULD I TAKE THE MATH PLACEMENT EXAM?

These majors/minors require taking the math placement exam or having transfer credit for a math course:

Accounting
Biology – all programs
Business
Chemistry
Clinical/Community Psychology
Computer Science
Computer Information Systems
Criminal Justice
Dental (Pre)
Earth Science (teaching)
Economics
Engineering Science
Environmental Science & Planning
Finance
Health Science – Environmental Health Track
Health Science – General Track
Mathematics
Medical-Pre
Medical Technology
Molecular Biology/Biotechnology
Nursing
Operations Management
Organizational Behavior & Human Resource Management
Pharmacy (Pre)
Physics
Psychology – all programs
Radiation Therapy
Sociology
Undecided – only if you are considering one of the majors on this list in the future
Veterinary (Pre)

If you have taken the Advanced Placement test (AP) in math:

You do NOT need to take the math placement test if you received a score of 3 or higher on either the Calculus AB or Calculus BC test. Be sure to have your AP results sent to our Admission's Office. If you have not received your AP scores in the mail, we recommend that you take the placement test until they arrive.

Please contact us if you need assistance at this point.
