

University of Michigan - Flint
Early Childhood Development Center
Family Parking Passes

Every family will be issued two parking passes. If you have more than two people in your family that pick up your child often, we can issue you more parking passes. You need this parking pass in the front window of your car every time you come to the Early Childhood Development Center.

We expect these passes will be used ONLY if you have business at the Early Childhood Development Center and the privileges will not be abused. We are using parking passes to identify campus security cars that do not belong in our parking spots.

One day parking passes can also be issued if you have someone other than those with parking passes pick up your child or visit the Early Childhood Development Center.
