

### InterScience Features

- Over 2700 full-text journals and reference works in the areas of sciences, math, computer science, engineering, business, psychology and social sciences published by Wiley Publishers
- Full text searchable
- Includes images, charts, graphs

### Accessing and Using InterScience:

1. Start at the library's home page (*lib.umflint.edu*)
2. Click on the link *Periodicals: Indexes & Full Text* in the left margin.
3. Again in the left margin, click on the link *Wiley InterScience*.
4. Select "Advanced Search" in the right margin (near the top of the display).
5. Enter terms to be searched in boxes provided. Use drop down menus to the left of search boxes to select logical operators, AND, OR, or NOT (see handout "Getting Started in Database Searching" for explanation of logical operators).
6. By default, "All fields" are searched. Use drop-down menu to select particular fields to search, for example "Keywords," or "Full text/Abstracts."
7. Select subject from "Online BookShelves," (to search in Wiley's online book collection only) or select all the subjects that are appropriate to search from "Subjects" list.
8. By default, all dates will be searched, or select date range.

### Search Results

1. All articles are available as full text. Click link "PDF" to view full text.
2. Articles may be printed or emailed using links in upper right corner of the abstract display.

### Tips

See searching tips in right margin of Advanced Search display for information on proximity searching, the wildcard character, and nesting searches.
