Building Upon Our Strengths and Moving Forward: 
*Assessment Rubrics for General Education Learning Outcomes*

In order to advance the assessment of our general education learning outcomes, Outcome Strategy Groups have been reconvened to continue to develop and refine assessment tools. This fall we hope to finalize rubrics for *Learning Outcome #1, Reflect on one's own learning process* and *Learning Outcome #2, Demonstrate facility with research methods*, with the intention of using them during the Winter 2012 semester.

Faculty are invited to participate in this discussion series to consider how the draft rubrics can be integrated into the curriculum.
