Interim Provost Dixon called the meeting to order at 10:00 a.m.

Approval of Minutes from May 26, 2015 ► The Minutes of May 26 were approved as written.

Discussion Items Coming from Executive Leadership Meeting – Marketing Centralization versus Decentralization ► Discussion centered on whether marketing efforts should be centralized or decentralized. The deans liked the current practice of decentralization because they felt that this practice maintains a consistency with the brand and some claimed that it helps in the area of increasing their enrollment.

Feedback from the Extended Leadership ► When asked how the Council felt about the Extended Leadership Meetings, the consensus was that the meetings should be more intentional and issue-driven.

Discussion Items Coming from Executive Leadership Meeting – Accreditation ► Discussion centered on departmental unit accreditation and the process of submitting reports to accreditation agencies. In the future all reports should be reviewed by the dean and provost in plenty of time for feedback prior to submission of the report to the accreditation agency.

Other ► The next regularly scheduled meeting is scheduled for June 23; however, because of some conflicts that meeting may be rescheduled. Sue will be in touch for some possible times.

The meeting adjourned at 12:00 noon.
