*Dominic Fusero*

is recognized for outstanding contributions to the success of the campus and is therefore awarded this

**STERLING STAFF AWARD**

*"For several years Dominic has handled all of the information technology issues and needs in the School of Management very effectively. He always tries to educate computer-illiterate people like me about the improvements to our computers that he is making. Sometimes he is even successful at that! But, in all cases, his work is prompt, reliable, and of the highest quality. Thank You!" Nominated by Keith Moreland*

*"Dominic has learned to successfully wear (and balance) two rather large "bats." The first, involving the long-term maintenance and expansion of the School of Management's computer hardware and software systems, and the second, the ability to "problem solve" as an information systems "fireman" who makes every effort to assist faculty who are faced with emergency situations. This is a difficult job, but Dominic has grown into it. Kudos!" Nominated by Thomas Hemphill*
