

SCHOOL OF NURSING

RN to MSN- Family Nurse Practitioner WITH other non-nursing bachelors degree

This RN/MSN curricular pathway is for highly qualified ADN or Diploma nurses who hold another non-nursing bachelor's degree and are seeking an MSN degree at UM-Flint as a **Family Nurse Practitioner**. Students must have a 3.50 GPA or better in the last 60 post-secondary credits completed. (If the applicant's ADN degree does not meet the 60-credit minimum, the most recent 60 college level credits will be considered.) A minimum of a B grade or better is required in prerequisite courses. The exception is statistics: a grade of C is acceptable.

Early Assurance Process:

- 1) The student must be accepted in the MSN program, through a competitive admission process. Students must apply for the Part-Time or Full-Time curriculum at the time of application.
- 2) The student must then apply and get admitted into the BSN Completion program to complete prerequisite courses. All Prerequisites must be finished within two years of application. A deadline will be given to each accepted student for prerequisite completion.

Admission to the MSN program will be confirmed as long as all criteria for prerequisites have been met. The student will receive official notification during the yearly admission process.

REQUIREMENTS

- Current unencumbered RN license in the United States
- Professional Goal Statement
- 3 references (Recommended that at least one must be an academic reference, form and details on Graduate Programs website)
- Current Curriculum Vitae or Resume
- Transcripts from all colleges and universities you have attended
- Application for Graduate Admission
- \$55 application fee

These classes are available online at UM-Flint.

- SOC 215 or any 3-credit college level statics course (*Grade of C or better required*)
- NSC 178/180- Legal/Moral Dec in NUR/HCR (**Grade of B or better required**)
