UNIVERSITY OF MICHIGAN-FLINT
Online Bachelor of Applied Science Degree

The Bachelor of Applied Science (BAS) degree at UM-Flint is offered online and designed for working professionals and traditional students who have completed an Associate of Applied Science (AAS) degree.

If you are looking to make the jump into a leadership role at work or make a career change altogether, we have a BAS program that will complement your AAS degree. Utilize your technical education and achieve MORE with a University of Michigan degree.

YOUR BAS ADVISOR

Once accepted to UM-Flint as a transfer student, your next step is contacting your BAS Advisor, Director of Applied Science Dennis Viele. He will make sure all of the credits you’ve accumulated thus far will be put to their best use.

You can search our Transfer Equivalency Database to see how your general ed courses will transfer, but Dennis will make sure your technical courses transfer toward the BAS. He will also help guide you to the most appropriate minor or disciplines that best suit your skill set and future goals.

UM-FLINT ADMISSION REQUIREMENTS

- Students must meet UM-Flint’s minimum transfer student admissions requirements.
- Completion of an AAS, including at least 16 transferable semester-hour credits, which apply toward UM-Flint’s general education requirements.

DEGREE REQUIREMENTS

- Completion of UM-Flint’s general education requirements
- Completion of at least 124 credits, at least 33 of which in upper division (300 or above), and at least 30 of which taken at UM-Flint
- Completion of a concentration in Applied Science, consisting entirely of technical credits taken during the associate degree program, and one of the following options chosen in consultation with an advisor and allowing pursuit of areas of interest in some depth
  - Completion of a concentration minor offered by UM-Flint
  - Fifteen (15) semester hours in each of two disciplines of the student’s choice: At least six (6) semester hours in one discipline must be in courses numbered 300 or above; three (3) semester hours in the other discipline must be in courses numbered 300 or above.
- Cumulative grade point average of 2.0 or better in the total work at UM-Flint

Substance Abuse (SAT)
Theatre (THE)

KASSANDRA OHLSSON

Visual Communication

My field of study at Mott Community College was motion graphics and film. I chose the Bachelor of Applied Science (BAS) program at UM-Flint because it required the least amount of time to complete, since I already had my Associate's in Applied Science. Plus, getting a bachelor's degree allows me more career opportunities, and I now have a chance to have "the full college experience" without it being overly expensive. The thing I like best about UM-Flint is the pride I have for this school. Just knowing I'll be a U-M alum is very exciting.
