Are you interested in becoming an advanced practice nurse?

If you have no background in Nursing but are interested in pursuing a career in advanced practice nursing as a Family Nurse Practitioner (FNP), this program is an opportunity for you.

Do you want to get a job that lets you earn a top salary?

According to the U.S. Bureau of Labor Statistics, the average annual median salary for nurse practitioners is $96,460. The highest paid 10% of nurse practitioners earn $120,500. In some cities, the average annual income for a nurse practitioner is $125,450.

Entry to the Accelerated BSN with early Assurance of Admission to the MSN Family Nurse Practitioner Program: This pathway to a career as a FNP is completed in less than 3 years!

The School of Nursing is offering early assurance of admission to the Master of Science in Nursing (MSN) Family Nurse Practitioner (FNP) program to 15 students who are admitted to the accelerated BSN program. Program length of full-time study: 4 semesters in the accelerated BSN + 5 semesters in the MSN program.
